

## A Voice From The Stomach

A Bloodless Fight Between a Tablet and a Habit—The Tablet Wins.

At the age of 23, Clarence had good digestion. He had gastric juice that could dissolve doughnuts and turn apples into good blood corpuscles.

At the age of 24 he began to be prone about the waist and lean backwards. He began to cultivate several clins. In his new-found pride he began to think it his duty to gorge himself on everything, the good and the bad, for appetite feeds on appetite—and every good thing is good.

His pictures showed that he took on weight after he put his collar on. At the age of 25 Clarence married and went to boarding. On top of all this, he attended oyster suppers and wine dinners, which reduced the size of his collar from 16 to 15. With still abiding faith in the strength of his stomach he gulped his meals, and chewed them afterwards.

At the age of 28 Clarence began to hear an inward voice—a warning from the stomach. After each meal, he would feel bloated and belching became a habit.

He began to be a light eater—and a heavy thinker. He tried to think out a cure for now he would sit down at his meals absolutely disgusted at the thought of eating anything.

He would sit down at his meals without the trace of an appetite, just because it was time to eat.

He would often feel a gnawing, unsatisfied "still-hungry" feeling in his stomach, even after he was through eating. Whether his meal was well cooked or not, he suffered a good many other things with his stomach that he could not explain, but that made him grouchy, miserable, out-of-sorts and generally sour on everybody and everything.

Finally he read an account, something like this, about the truly wonderful results obtained from Stuart's Dyspepsia Tablets in all cases of stomach trouble, dyspepsia, indigestion, etc.

He did so on. He bought a 50c box at the drug store, and took the whole lot. When he started, he had little faith and less appetite. When he finished he had absolute faith—and more appetite, and more good cheer. Things began to taste different and better to him.

Now he has no more dyspepsia, no more indigestion, no more loss of appetite, no more nervousness, no more heartburn, nausea, eructations, bad memory, or loss of vim and vigor.

Remember, one ingredient of Stuart's Dyspepsia Tablets will digest for you 3000 grains of food, just as it did for Clarence. The relief your stomach can get from digesting until your stomach is strong and healthy again. Your stomach is strong and healthy again. Your stomach is strong and healthy again.
